To promote summer reading, we are implementing D.E.A.R (Drop Everything and Read). All children will be engaged in reading, focus groups, story-time and activities to keep kids reading all summer.

Campers 8-13 years old will be engaged in a variety of science, engineering, math and aerospace activities to stimulate learning through the SEMAA (science, engineering, math, aerospace academy) program administered by Morgan State University.

NASA's Summer of Innovation Project has also been implemented in our program. The project provides hands-on learning opportunities for youth through NASA-unique science, technology, engineering and mathematics educational activities.

Special Even	ts
June 26	Everybody's Birthday
July 3	Ice cream Social
